

TILT CHALLENGE 2023

Edition #1

**RESPONSE FILE
2022/2023**

Organized both by the Cinov Federation and the OPCO Atlas, TILT CHALLENGE 2023 is an international challenge for partner schools. The aim of the TILT CHALLENGE is to reward new ideas for reinventing the guidance pathway for young people in training. Up to 20 000€ to finance the implementation of the winning project.

Response file due date : March 31th 2023 - midnight

Committee & Jury

The committee is composed of members of the Cinov Federation and OPCO Atlas. The committee is in charge of making a top 3 pre-selection (the nominees).

The jury is composed of members of the Cinov Federation and OPCO Atlas and professionals in its field. It will establish the list of winners: Gold / Silver / Bronze after 10 minutes of oral presentation by the nominees, in order to defend their project in front of the jury (in person or on video).

Application selection criteria

In order to enter the TILT CHALLENGE your application will have to respect the following criteria:

- The completion of the present application
- An internationally recognizable connection with the identification of a partner school out of France
- A certain relevance for the first shared vision

Response project notation criteria

The notations criteria are :

- The relevance of the proposed project
- The innovative nature of the project
- The sustainability and reproducibility of the proposal
- The quality and completeness of the application and its annexes
